Different paper sizes for documentation.

This is a sample of a small papersize, which is useful when you want to add a \book{} around some input.

\book {
  \header {
    title = "A scale in LilyPond"
  }
  \score {
    \relative c' {
      c4 d e f
    }
  }
}

A scale in LilyPond

Music engraving by LilyPond 2.20.0—www.lilypond.org

Here is a different paper size, and a changed tagline.

\book {
  \header {
    title = "A scale in LilyPond"
    tagline = "... music notation for Everyone"
  }
  \score {
    \relative c' {
      c4 d e f
    }
  }
}

A scale in LilyPond

... music notation for Everyone
