

LYs Doc

1 Introduction

Why a MusicXML test suite?

This test suite of sample MusicXML (<http://www.musicxml.org/>) files is supposed to fill a severe gap for all developers implementing MusicXML support in their application: There is no complete test suite of MusicXML files available for testing purposes.

Downloading the test suite

The complete set of MusicXML test files contained in this suite can be downloaded here ([MusicXML-TestSuite-0.1.zip](#)) as a ZIP archive.

License of the test suite

This collection of MusicXML test files is distributed under the MIT license (<http://www.opensource.org/licenses/mit-license.php>), which means that you can use the files for any purpose, as long as you leave the copyright notice (or the LICENSE file) intact.

Connection with LilyPond (<https://lilypond.org/>)

At the same time as providing a generic test suite for MusicXML document, this test suite also serves as proofs for the `musicxml2ly` script provided with LilyPond dev. The images shown in the Chapter 2 [Test cases], page 4, chapter were generated by running `musicxml2ly` and `lilypond` on the MusicXML files. As `musicxml2ly` does not yet perfectly support every single aspect of MusicXML, the output is not supposed to be used as a definitive reference rendering, but rather as an indication how one particular application supports and interprets each of the test files.

If something does not seem right in the output, it might either be that this feature has not been implemented yet, has been wrongly implemented, or a regression has crept in recently...

In the web version of this document, you can click on the file name or figure for each example to see the corresponding `.ly` intermediary file.

Structure of this test suite

Each test file (typically hand-crafted from the MusicXML "specification") checks one particular aspect of MusicXML. A short description of the particular feature for a file is given element inside the file in a comment element of the form:

```
<identification><miscellaneous>
  <miscellaneous-field name="description"> .... </miscellaneous-field>
</miscellaneous></identification>
```

The files are categorized by their first two digits with the following meaning:

- 01-03 ... Basics: Pitches, Rests, Rhythm
- 11-13 ... Staff attributes: Time signatures, Clefs, Key signatures
- 21-24 ... Note settings: Chorded notes, note heads, tuplets, grace notes
- 31-33 ... Notations and articulations: Dynamics (staff-attached), Notations (note-attached), Spanners
- 41-44 ... Parts: Multiple parts, multi-voice parts, multi-staff parts
- 45-46 ... Measure issues and repeats
- 51-52 ... Page issues: Header fields, page layout
- 55-59 ... Exact positioning of items, offsets, etc.

- 61-69 ... Vocal music
- 71-75 ... Instrument-specific: Guitar (Chord, fretboards), Transposing instruments, Percussion, Figured Bass, Others
- 81-89 ... MIDI generation (all sound-related issues)
- 90-99 ... Various Other: Compressed MusicXML files, compatibility with broken MusicXML files exported by other applications

Some of the categories (in particular the exact item positioning and the MIDI generation) don't have any test cases yet.

2 Test cases

01 ... Pitches

All pitches from G to c'' in ascending steps; First without accidentals, then with a sharp and then with a flat accidental. Double alterations and cautionary accidentals are tested at the end.

01a-Pitches-Pitches.xml

Pitches and accidentals

The musical score consists of four staves of music in treble clef, 4/4 time. The first staff starts with a common time signature 'C' and shows a sequence of chords and single notes ascending from G4 to c6. The second staff begins at measure 8 and continues the sequence with various accidentals (sharps and flats) and double alterations. The third staff starts at measure 14 and includes cautionary accidentals. The fourth staff starts at measure 20 and concludes with a double bar line.

All pitch intervals in ascending jump size.

01b-Pitches-Intervals.xml

Various pitches and interval sizes

The musical score consists of two staves of music in treble clef, 2/4 time. The first staff starts with a 2/4 time signature and shows a sequence of notes with various accidentals and interval sizes. The second staff begins at measure 11 and continues the sequence with various accidentals and interval sizes.

The <voice> element of notes is optional in MusicXML (although Dolet always writes it out). Here, there is one note with lyrics, but without a voice assigned. It should still be correctly converted.

01c-Pitches-NoVoiceElement.xml

1. A

Some microtones: c flat-and-a-half, d half-flat, e half-sharp, f sharp-and-a half. Once in the lower and once in the upper region of the staff.

01d-Pitches-Microtones.xml

Accidentals can be cautionary or editorial. Each measure has a normal accidental, an editorial, a cautionary and an editorial and cautionary accidental.

01e-Pitches-ParenthesizedAccidentals.xml

Microtone accidentals can be cautionary or editorial. Each measure has a normal accidental, an editorial, a cautionary and an editorial and cautionary accidental.

01f-Pitches-ParenthesizedMicrotoneAccidentals.xml

03 ... Rhythm

All note durations, from long, brevis, whole until 128th; First with their plain values, then dotted and finally doubly-dotted.

03a-Rhythm-Durations.xml

Three staves of musical notation. The first staff starts at measure 16 and ends at measure 24. The second staff starts at measure 24 and ends at measure 28. The third staff starts at measure 28 and ends at measure 32. Each staff shows a sequence of notes with increasing complexity in duration and grouping, ending with a double bar line.

Two voices with a backup, that does not jump to the beginning for the measure for voice 2, but somewhere in the middle. Voice 2 thus won't have any notes or rests for the first beat of the measures.

03b-Rhythm-Backup.xml

A single staff of musical notation in common time (C). It shows a sequence of notes with a backup measure, where the first measure is empty.

Although uncommon, the divisions of a quarter note can change somewhere in the middle of a MusicXML file. Here, the first half measure uses a division of 1, which then changes to 8 in the middle of the first measure and to 38 in the middle of the second measure.

03c-Rhythm-DivisionChange.xml

A single staff of musical notation in common time (C). It shows a sequence of notes with a division change, where the first half measure uses a division of 1, which then changes to 8 in the middle of the first measure and to 38 in the middle of the second measure.

Several durations can be written with dots. For multimeasure rests, we can also have durations that cannot be expressed with dotted notes (like 5/8).

03d-Rhythm-DottedDurations-Factors.xml

Two staves of musical notation. The first staff starts at measure 1 and ends at measure 5. The second staff starts at measure 9 and ends at measure 31. Each staff shows a sequence of notes with multimeasure rests of various time signatures, ending with a double bar line.

11 ... Time signatures

Various time signatures: 2/2 (alla breve), 4/4 (C), 2/2, 3/2, 2/4, 3/4, 4/4, 5/4, 3/8, 6/8, 12/8
 11a-TimeSignatures.xml

A score without a time signature (but with a key and clefs)

11b-TimeSignatures-NoTime.xml

Compound time signatures with same denominator: $(3+2)/8$ and $(5+3+1)/4$.

11c-TimeSignatures-CompoundSimple.xml

Compound time signatures with separate fractions displayed: $3/8+2/8+3/4$ and $5/2+1/8$.

11d-TimeSignatures-CompoundMultiple.xml

Compound time signatures of mixed type: $(3+2)/8+3/4$.

11e-TimeSignatures-CompoundMixed.xml

A time signature of 3/8 with the symbol="cut" attribute and two symbol="single-number" attributes with compound time signatures. Shall the symbol be ignored in this case?

11f-TimeSignatures-SymbolMeaning.xml

Time signature displayed as a single number.

11g-TimeSignatures-SingleNumber.xml

Senza-misura time signature

11h-TimeSignatures-SenzaMisura.xml

12 ... Clefs

Various clefs: G, C, F, percussion, TAB and none; some are also possible with transposition and on other staff lines than their default (e.g. soprano/alto/tenor/baritone C clefs); Each measure shows a different clef (measure 17 has the "none" clef), only measure 18 has the same treble clef as measure 1.

12a-Clefs.xml

A score without any key or clef defined. The default (4/4 in treble clef) should be used.

12b-Clefs-NoKeyOrClef.xml

13 ... Key signatures

Various key signature: from 11 flats to 11 sharps (each one first one measure in major, then one measure in minor)

13a-KeySignatures.xml

Different Key signatures

The image displays 11 staves of musical notation, each representing a different key signature. The notation is in treble clef and 2/4 time. The first five staves (measures 1-15) show key signatures with 11 flats: C major (no sharps or flats), C minor (one flat), D minor (two flats), E minor (three flats), and F minor (four flats). The next five staves (measures 16-30) show key signatures with 11 sharps: F major (one sharp), G major (two sharps), A major (three sharps), B major (four sharps), and C major (no sharps or flats). The final staff (measures 31-42) shows the C major key signature with 11 sharps, where the notes are marked with 'x' to indicate they are not natural.

All different modes: major, minor, ionian, dorian, phrygian, lydian, mixolydian, aeolian, and locrian; All modes are given with 2 sharps.

13b-KeySignatures-ChurchModes.xml

The image shows a single staff of musical notation in treble clef and common time (C). The key signature has two sharps (F# and C#). The notes are: C4, D4, E4, F#4, G4, A4, B4, C#5, D5, E5, F#5, G5, A5, B5, C6. The notes are marked with 'x' to indicate they are not natural.

1. major minor ionian dorian phrygian lydian mixolydian aeolian locrian

21c-Chords-ThreeNotesDuration.xml

Chords in the second measure, after several ornaments in the first measure and a p at the beginning of the second measure.

21d-Chords-SchubertStabatMater.xml

Check for proper chord detection after a pickup measure (i.e. the first beat of the measure is not aligned with multiples of the time signature)!

21e-Chords-PickupMeasures.xml

Between the individual notes of a chord there can be direction or harmony elements, which should be properly assigned to the chord (or the position of the chord).

21f-Chord-ElementInBetween.xml

22 ... Note settings, heads, etc.

Different note styles, using the <notehead> element. First, each note head style is printed with four quarter notes, two with filled heads, two with unfilled heads, where first the stem is up and then the stem is down. After that, each note head style is printed with a half note (should have an unfilled head by default). Finally, the Aiken note head styles are tested, once with stem up and once with stem down.

22a-Noteheads.xml

12

18

cross x circle-x inverted triangle arrow down arrow up slashed back slashed

22

normal cluster do re mi fa so

28

la ti do re mi fa so la ti do do re mi fa so la ti do

Staff-connected note styles: slash notation, hidden notes (with and without hidden staff lines)

22b-Staff-Notestyles.xml

1. slash, no stem slash, with stem normal settings restored

Different note styles for individual notes inside a chord, using the <notehead> element.

22c-Noteheads-Chords.xml

1. normal
2. cross
3. triangle
4. slash

Parenthesized note heads. First, a single parenthesized note is tested, once with a normal and then with a non-standard notehead, then two chords with some/all parenthesized noteheads and finally a parenthesized rest.

22d-Parenthesized-Noteheads.xml

A grace note on a different staff than the actual note.

24e-GraceNote-StaffChange.xml

A grace note with a slur to the actual note. This can be interpreted as acciaccatura or appoggiatura, depending on the existence of a slash.

24f-GraceNote-Slur.xml

31 ... Dynamics and other single symbols

All <direction> elements defined in MusicXML. The lyrics for each note describes the direction element assigned to that note.

31a-Directions.xml

MusicXML directions (attached to staff)

32b-Articulations-Texts.xml

Normal, Small
 Normal, Large
 Normal, Medium
Bold, Medium
Bold, Large

It should not make any difference whether two articulations are given inside two different notation elements, inside two different articulations children of the same notation element or

inside the same articulations element. Thus, all three notes should have a staccato and an accent.

32c-MultipleNotationChildren.xml

Different Arpeggio directions (normal, up, down, non-arpeggiate)

32d-Arpeggio.xml

33 ... Spanners

Several spanners defined in MusicXML: tuplet, slur (solid, dashed), tie, wedge (cresc, dim), tr + wavy-line, single-note trill spanner, octave-shift (8va,15mb), bracket (solid down/down, dashed down/down, solid none/down, dashed none/up, solid none/none), dashes, glissando (wavy), bend-alter, slide (solid), grouping, two-note tremolo, hammer-on, pull-off, pedal (down, change, up).

33a-Spanners.xml

Two simple tied whole notes

33b-Spanners-Tie.xml

A note can be the end of one slur and the start of a new slur. Also, in MusicXML, nested slurs are possible like in the second measure where one slur goes over all four notes, and another slur goes from the second to the third note.

33c-Spanners-Slurs.xml

All types of octave shifts (15ma, 15mb, 8va, 8vb)

33d-Spanners-OctaveShifts.xml

Invalid octave-shifts: 27 down, 11 up.

33e-Spanners-OctaveShifts-InvalidSize.xml

A trill spanner that spans a grace note and ends on an after-grace note at the end of the measure.

33f-Trill-EndingOnGraceNote.xml

Slurs on chorded notes: Only the first note of the chord should get the slur notation. Some applications print out the slur for all notes – these should be ignored.

33g-Slur-ChordedNotes.xml

All different types of glissando defined in MusicXML

33h-Spanners-Glissando.xml

1. normal glissando solid (+text) dashed dotted wavy normal slide

4

solid (+text) dashed dotted wavy

A musical staff with a treble clef and a 4-measure piece. The first measure has a solid tie between two notes. The second measure has a dashed tie between two notes. The third measure has a dotted tie between two notes. The fourth measure has a wavy tie between two notes. Below the staff, the labels 'solid (+text) dashed dotted wavy' are aligned with their respective ties.

Several ties that have their end tag missing.

33i-Ties-NotEnded.xml

1. A B C D E

A musical staff with a treble clef and a common time signature. It contains five tied notes, each in a separate measure. Below the staff, the labels '1. A B C D E' are aligned with their respective notes.

41 ... Multiple parts (staves)

A piece with four parts (P0, P1, P2, P3; different from what Finale creates!). Are they converted in the correct order?

41a-MultiParts-Partorder.xml

Part 1
Part 2
Part 3
Part 4

Four musical staves are stacked vertically, each labeled 'Part 1' through 'Part 4' on the left. Each staff contains a single note with a stem and a flag, followed by a rest. The notes are in a 4/4 time signature with a key signature of one sharp (F#).

A piece with 20 parts to check whether an application supports that many parts and whether they are correctly sorted.

The image displays a vertical musical score consisting of 20 staves, labeled P0 through P19. Each staff begins with a treble clef and a 4/4 time signature. A single note is placed on the first line of each staff, and the staves are connected by unbroken bar lines.

A huge orchestra score with 28 parts and different kinds of nested bracketed groups. Each part/group is assigned a name and an abbreviation to be shown before the staff. Also, most of the groups show unbroken barlines, while the barlines are broken between the groups.

Piccolo

Trumpet in C 1
Trumpet in C 2
Trombone 1
Trombone 2
Tuba
Timpani
Percussion
Harp
Piano
Violin I
Violin II
Viola
Cello
Contrabass

Two properly nested part groups: One group (with a square bracket) goes from staff 2 to 4) and another group (with a curly bracket) goes from staff 3 to 4.

41d-StaffGroups-Nested.xml

A musical score in 4/4 time with five staves. The first staff contains a whole note G4, a whole note A4, and a whole rest. The second staff contains a whole note G4, a whole note A4, and a whole rest. The third and fourth staves are grouped together by a large left-facing curly brace and contain a whole note G4, a whole note A4, and a whole rest. The fifth staff contains a whole note G4, a whole note A4, and a whole rest. All staves end with a double bar line.

Part names and abbreviations can contain line breaks.

41e-StaffGroups-InstrumentNames-Linebroken.xml

A musical score in 4/4 time with a single staff. The staff name is "Long Staff Name" written vertically to the left of the staff. The staff contains five measures, each with a whole note G4. The staff ends with a double bar line.

A musical score in 4/4 time with a single staff. The staff name is "St. Nm." with a superscript "6" above the "St." written vertically to the left of the staff. The staff contains eight measures, each with a whole note G4. The staff ends with a double bar line.

A musical score in 4/4 time with a single staff. The staff name is "St. Nm." with a superscript "15" above the "St." written vertically to the left of the staff. The staff contains nine measures, each with a whole note G4, followed by a whole rest in the final measure. The staff ends with a double bar line.

MusicXML allows for overlapping part-groups, while many applications do not allow overlapping groups, but require them to be properly nested. In this case, one group (within parenthesis) goes from staff 1 to 4 and another group (also within parenthesis) goes from staff 3 to 5.

41f-StaffGroups-Overlapping.xml

The image shows a musical score with five staves. The first two staves are grouped together with a bracket labeled "Group 1". The next two staves are grouped together with a bracket labeled "Group 2". The fifth staff is not grouped. Each staff contains a single note (a half note) followed by a bar line. The notes are positioned such that the groups overlap: Group 1 covers the first two staves, Group 2 covers the second and third staves, and the fifth staff is separate.

A part with no id attribute. Since this piece has only one part, it is clear which part is described by the one part element.

41g-PartNoId.xml

This piece has more part elements than the part-list section gives. One can either convert all the parts present, but not listed in the part-list, or simply not import / ignore them.

41h-TooManyParts.xml

The image shows a single musical staff with a treble clef, a common time signature (C), and a single note (a half note) followed by a bar line.

MusicXML allows part-name and part-name-display in the score-part element. If part-name-display is given, it overrides the part-name for display.

The first staff uses only part-name, while the second one (same part-name) overrides it with a custom text. Similar for the part-abbreviation used in subsequent staves.

41i-PartNameDisplay-Override.xml

The image shows four musical staves. The first staff is labeled "Part name" and contains a treble clef, a common time signature (C), and a single note (a half note) followed by a bar line. The second staff is labeled "Overridden Part Name" and contains a treble clef, a common time signature (C), and a single note (a half note) followed by a bar line. The third staff is labeled "abbrv." and contains a treble clef, a common time signature (C), and a single note (a half note) followed by a bar line. The fourth staff is labeled "Overrr.abbrv." and contains a treble clef, a common time signature (C), and a single note (a half note) followed by a bar line. The notes are positioned such that the staves are vertically aligned.

This score has multiple display-text elements in its part-name-display block. This is handled without crashing.

41j-PartNameDisplay-Multiple-DisplayText-Children.xml

42 ... Multiple voices per staff

Two voices share one staff. Each voice is assigned some lyrics.

42a-MultiVoice-TwoVoicesOnStaff-Lyrics.xml

- 1. This is the lyrics of Voice1
- 1. This is the lyrics of Voice2

A multi-voice / multi-staff part with a clef change in the middle of a measure and a <backward> for voice 2 jumping back beyond that clef change.

42b-MultiVoice-MidMeasureClefChange.xml

43 ... One part on multiple staves

A simple piano staff

43a-PianoStaff.xml

A piano staff with different keys and clefs for each of its staves. The keys and clefs for both staves are given at the very beginning of the measure.

43b-MultiStaff-DifferentKeys.xml

A piano staff with two staves. The first staff is in treble clef with a key signature of one sharp (F#) and a 4/4 time signature. The second staff is in bass clef with a key signature of two sharps (F# and C#) and a 4/4 time signature. Both staves contain a single whole note in the first measure.

A piano staff with different keys and clefs for each of its staves. The key and clef for the second staff is given only after a backward, just before the first note of the second staff is given, but after the whole measure for staff 1 has been given.

43c-MultiStaff-DifferentKeysAfterBackup.xml

A piano staff with two staves. The first staff is in treble clef with a key signature of one sharp (F#) and a 4/4 time signature. The second staff is in bass clef with a key signature of two sharps (F# and C#) and a 4/4 time signature. Both staves contain a single whole note in the first measure.

Staff changes in a piano staff. The voice from the second staff has some notes/chords on the first staff. The final two chords have some notes on the first, some on the second staff.

43d-MultiStaff-StaffChange.xml

A piano staff with two staves. The first staff is in treble clef with a common time signature (C). The second staff is in bass clef with a common time signature (C). The first staff contains a melodic line of eighth notes. The second staff contains a bass line of eighth notes. The piece ends with two chords, each with notes on both staves.

A piano staff with dynamics and clef changes, where each element (ffff, wedge and clef changes) applies only to one voice or one staff, respectively.

43e-Multistaff-ClefDynamics.xml

A piano staff with two staves. The first staff is in treble clef with a common time signature (C). The second staff is in bass clef with a common time signature (C). The first staff contains a melodic line of eighth notes. The second staff contains a bass line of eighth notes. The piece includes dynamics (ffff and p), a wedge, and a clef change in the second staff.

45 ... Repeats

A simple, repeated measure (repeated 5 times)

45a-SimpleRepeat.xml

A single staff in treble clef with a common time signature (C). The staff contains a single measure of a whole rest, followed by a repeat sign and another measure of a whole rest.

A simple repeat with two alternative endings (volta brackets).

45b-RepeatWithAlternatives.xml

Repeats can also be nested.

45c-RepeatMultipleTimes.xml

Nested repeats, each with alternative endings.

45d-Repeats-Nested-Alternatives.xml

Some more nested repeats with alternatives. The barline between measure 7 and 8 will probably be messed up! (Should be a repeat on both sides!)

45e-Repeats-Nested-Alternatives.xml

Some more nested repeats with alternatives, where the MusicXML file does not make sense in the first place. How well are applications able to cope with improper repeats and alternatives?

45f-Repeats-InvalidEndings.xml

A forward-repeating bar line without an ending repeat bar.

45g-Repeats-NotEnded.xml

46 ... Barlines, Measures

Different types of (non-repeat) barlines: default (no setting), regular, dotted, dashed, heavy, light-light, light-heavy, heavy-light, heavy-heavy, tick, short, none.

46a-Barlines.xml

Barlines can appear at mid-measure positions, without using an implicit measure!

46b-MidmeasureBarline.xml

A clef change in the middle of a measure, using either an implicit measure or simply placing the attributes in the middle of the measure.

46c-Midmeasure-Clef.xml

A 3/8 pickup measure, a measure that is split into one (incomplete, only 2/4) measure and an implicit measure, and an incomplete measure (containing 3/4).

46d-PickupMeasure-ImplicitMeasures.xml

Voice 2 should start at 2nd beat of first full measure.

46e-PickupMeasure-SecondVoiceStartsLater.xml

Measures can contain less notes than the time signature says. Here, the first and third measures contain only two quarters instead of four.

46f-IncompleteMeasures.xml

Pickup measure with chord names and figured bass.

46g-PickupMeasure-Chordnames-FiguredBass.xml

51 ... Header information

Several header fields and part names can contain quotes ("). This test checks whether they are converted/imported without problems (i.e. whether they are correctly escaped when converting).

51b-Header-Quotes.xml

" Quotes" in header fields

Some " Tester" Name

There can be multiple <rights> tags in the identification element of the score. The conversion shall still work, ideally using both of them.

51c-MultipleRights.xml

A piece with an empty (but existing) work-title, but a non-empty movement-title. In this case the movement-title should be chosen, even though the work-title exists.

51d-EmptyTitle.xml

Empty work-title, non-empty movement-title

Empty work-title, non-empty movement-title

52 ... Page layout

Several page layout settings: paper size, margins, system margins and distances, different fonts, etc.

52a-PageLayout.xml

Layout options

System and page breaks, given in a <print> element
52b-Breaks.xml

61 ... Lyrics

Some notes with simple lyrics: Syllables, notes without a syllable, syllable spanners.

61a-Lyrics.xml

1. Trala-li Ja! Tra - ra! Bah!

Multiple (simple) lyrics. The order of the exported stanzas is relevant (identified by the number attribute in this test case)

61b-MultipleLyrics.xml

1. 1.Tra-la-la, ja! — Tra - ra...
2. 2.tra - la-la, ja! — Tra - ra.
3. 3.TRALALA, JA! — TRA-RA...

Lyrics assigned to the voices of a piano staff containing two simple staves. Each staff is assigned exactly one lyrics line.

61c-Lyrics-Pianostaff.xml

1. TRALALIJA! _

How to treat lyrics and slurred notes. Normally, a slurred group of notes is assigned only one lyrics syllable.

61d-Lyrics-Melisma.xml

1. Me - lis - ma. _

The image shows a musical staff in treble clef with a common time signature (C). It contains four measures of music. The first measure has a quarter note G4, a quarter note A4, and a quarter note B4. The second measure has a quarter note C5, a quarter note B4, and a quarter note A4. The third measure has a quarter note G4, a quarter note F4, and a quarter note E4. The fourth measure has a quarter note D4, a quarter note C4, and a quarter note B3. The lyrics "1. Me - lis - ma. _" are written below the staff, with hyphens under "lis" and "ma".

Assigning lyrics to chorded notes.

61e-Lyrics-Chords.xml

1. Lyrics on chords

The image shows a musical staff in treble clef with a common time signature (C). It contains four measures of music. The first measure has a quarter note G4, a quarter note A4, and a quarter note B4. The second measure has a quarter note C5, a quarter note B4, and a quarter note A4. The third measure has a quarter note G4, a quarter note F4, and a quarter note E4. The fourth measure has a quarter note D4, a quarter note C4, and a quarter note B3. The lyrics "1. Lyrics on chords" are written below the staff.

Grace notes shall not mess up the lyrics, and they shall not be assigned a syllable.

61f-Lyrics-GracedNotes.xml

1. Ly - rics on notes _

The image shows a musical staff in treble clef with a common time signature (C). It contains four measures of music. The first measure has a quarter note G4, a quarter note A4, and a quarter note B4. The second measure has a quarter note C5, a quarter note B4, and a quarter note A4. The third measure has a quarter note G4, a quarter note F4, and a quarter note E4. The fourth measure has a quarter note D4, a quarter note C4, and a quarter note B3. The lyrics "1. Ly - rics on notes _" are written below the staff, with hyphens under "Ly" and "rics".

A lyrics syllable can have both a number and a name attribute. The question is: What should be used to put syllables of the same voice together. This example uses different number/name combinations to check how different applications handle this unspecified case (The advice on the MusicXML mailing list was "there is no correct way, each application can do what it thinks is best").

61g-Lyrics-NameNumber.xml

1. Verse1AChorus1AAnotherChorus1A1BVerse1CChorus1D
2. Chorus1A - 2B - Chorus2C

The image shows a musical staff in treble clef with a 6/4 time signature. It contains six measures of music, each with a single quarter note: G4, A4, B4, C5, B4, A4. The lyrics "1. Verse1AChorus1AAnotherChorus1A1BVerse1CChorus1D" and "2. Chorus1A - 2B - Chorus2C" are written below the staff.

Beaming or slurs can indicate melismata for lyrics. Also make sure that notes without an explicit syllable are treated as if they were part of a melisma.

61h-Lyrics-BeamsMelismata.xml

1. Me - lisma _ Me - lisma _ Me - lisma _ Me - lisma _

The image shows a musical staff in treble clef with a common time signature (C). It contains four measures of music. Each measure has a quarter note G4, a quarter note A4, and a quarter note B4. The lyrics "1. Me - lisma _ Me - lisma _ Me - lisma _ Me - lisma _" are written below the staff, with hyphens under "lisma".

Each note of a chord can have some lyrics attached. In this case, each note of the chord has lyrics of the form "Lyrics [123]" attached, where each lyrics has a different number attribute to distinguish them. These syllables should be imported into three different stanzas and the timing should be correct.

61i-Lyrics-Chords.xml

1. Lyrics 1
2.
3.

Multiple lyrics syllables assigned to a single note are implemented either using a space in the lyrics or by using the <elision> lyrics element. This testcase checks both of them. First, a note with one syllable is given, then a note with two syllables separated by a space and finally a note with two and one with three syllables implemented using <elision> is given.

61j-Lyrics-Elisions.xml

1. a b c d e f g h

Lyrics spanners: continued syllables and extenders, possibly spanning multiple notes. The intermediate notes do not have any <lyric> element.

61k-Lyrics-SpannersExtenders.xml

1. A _ b - CC _ e _

71 ... Guitar notation

A normal staff with several (complex) chord names displayed.

71a-Chordnames.xml

C⁵ C^{lyd} B⁷ #⁵ #⁹ E_b^{sus2} G⁵ D[#] A^{o7} A^{#5}

A staff with chord names and some fretboards shown. The fretboards can have an arbitrary number of frets/strings, can start at an arbitrary fret and can even contain fingering information.

71c-ChordsFrets.xml

C⁵ C^{lyd} B⁷ #⁵ #⁹ E_b^{sus2} G⁵ D[#] A^{o7} C⁵

Chords and fretboards assigned to the voices in a multi-voice, multi-staff part. There should be fret diagrams above each of the two staves.

71d-ChordsFrets-Multistaff.xml

The image shows a musical score for a multi-staff part. It features two staves, a treble clef on top and a bass clef on the bottom, both in common time (C). Above the staves, four chords are listed: C⁵, D⁷, E_bm⁹, and Cm⁷ 11. Below the chords, there are four fret diagrams. The first diagram is for E_bm⁹ and shows a barre on the 4th fret with an 'iv' marking. The second diagram is for C⁵. The third diagram is for D⁷. The fourth diagram is for Cm⁷ 11. The musical notation consists of quarter notes on the treble staff and eighth notes on the bass staff.

Some tablature staves, with explicit fingering information and different string tunings given in the MusicXML file.

71e-TabStaves.xml

The image shows a tablature for five instruments: Guitar, Bass Guitar, Banjo, Lute, and Ukulele. Each instrument has two staves, labeled 'A' and 'B', representing different string tunings. The tablature is organized into two measures. The first measure contains fret numbers and fingering information (indicated by 'T' for thumb and 'F' for finger). The second measure contains fret numbers. The instruments and their tunings are:

- Guitar: Tuning A (E4, A4, D5), B (E4, A4, D5, G5). Fingering: T 17 1, F 4, A 5, B 2 4 5.
- Bass Guitar: Tuning A (E2, A2, D3), B (E2, A2, D3, G3). Fingering: T 4, A 1, B 3 4 5.
- Banjo: Tuning A (D4, G4, B4, D5, G5), B (D4, G4, B4, D5, G5). Fingering: T 1 2, A 2, B 0 6.
- Lute: Tuning A (D4, G4, B4, D5, G5), B (D4, G4, B4, D5, G5). Fingering: T 4, A 5, B 0 0 0.
- Ukulele: Tuning A (C4, F4, C5, F5), B (C4, F4, C5, F5). Fingering: T 0, A 0 8, B 0 0 0 0.

All chord types defined in MusicXML. The staff will only contain one c' note (NO chord) for all of them, but the chord names should be properly printed.

71f-AllChordTypes.xml

All MusicXML chord names/types with <root>

1. C^5 major C^5 minor $C^{\#5}$ augmented C^b5 diminished

2. C^7 dominant C^Δ major-seventh Cm^7 minor-seventh $C^{\circ 7}$ diminished-seventh

3. $C^{7\#5}$ augmented-seventh C^{7b5} half-diminished Cm^Δ major-minor C^6 major-sixth

4. Cm^6 minor-sixth C^9 dominant-ninth $C^\Delta 9$ major-ninth Cm^9 minor-ninth

5. C^{11} dominant-11th $C^\Delta 11$ major-11th Cm^{11} minor-11th C^{13} dominant-13th

6. $C^\Delta 13$ major-13th Cm^{13} minor-13th C^{sus2} suspended-second C^{sus4} suspended-fourth

7. Neapolitan Italians French German pedal C^5 power Tristan C other

9. $F^\#5$ Inversion Fb^5/C $G^\#5/D^\#$ C^5 C^b5 C G^{sus2} $C-3+5b$

There can be multiple subsequent harmony elements, indicating a harmony change during a note

71g-MultipleChordnames.xml

A musical staff in 4/4 time with a treble clef. The melody consists of two notes: a quarter note C4 and a quarter note E4. Above the staff, four chord names are written: C⁵, F#m⁶, Dm⁷, and G⁷, each positioned above its corresponding note.

72 ... Transposing instruments

Transposing instruments: Trumpet in Bb, Horn in Eb, Piano; All of them show the C major scale (the trumpet with 2 sharp, the horn with 3 sharp).

72a-TransposingInstruments.xml

Three staves of musical notation for the C major scale. The top staff is labeled 'Trumpet in Bb' and has a key signature of two sharps (F# and C#). The middle staff is labeled 'Horn in Eb' and has a key signature of three sharps (F#, C#, and G#). The bottom staff is labeled 'Piano' and has a key signature of no sharps or flats. All three staves show the C major scale in a single measure, with the notes C, D, E, F, G, A, B, and C.

Various transposition. Each part plays a c'', just displayed in different display pitches. The second-to-last staff uses a transposition where the displayed c' is an actual f''' concert pitch. The final staff is an untransposed instrument.

72b-TransposingInstruments-Full.xml

Clarinet in Eb

Clarinet in Bb

Clarinet in A

Horn in F

Horn in Eb

Piccolo Trumpet in A

Trumpet in Bb

Trumpet in C

Trumpet in D

displayed c'=fis'''
8

An instrument change from one transposition (Clarinet in Eb) to another transposing instrument (Clarinet in Bb). The displayed instrument name should also be updated.

The whole piece is in Bb major (sounding), so first the key signature should be one flat, after the change it should have no accidentals.

72c-TransposingInstruments-Change.xml

Clarinet in Eb

73 ... Percussion

Three types of percussion staves: A five-line staff with bass clef for Timpani, a five-line staff with percussion clef, and a one-line percussion staff with only unpitched notes.

73a-Percussion.xml

74 ... Figured bass

Some figured bass containing altered figures, bracketed figures and slashed figures. The last note contains an empty <figured-bass> element, which is invalid MusicXML, to check how well applications cope with malformed files.

Note that this file does not contain any extenders!

74a-FiguredBass.xml

75 ... Other instrumental notation

All possible accordion registrations.

75a-AccordionRegistrations.xml

90 ... Compressed MusicXML files

A compressed MusicXML file, containing a simple MusicXML score and the corresponding .pdf output for reference.

90a-Compressed-MusicXML.mxl

Compressed MusicXML file

99 ... Compatibility with broken MusicXML

Dolet 3 for Sibelius (5.1) did not print out any closing beam tags, only starting and continuing beam tags. For such files, one either needs to ignore all beaming information or close all beams

99a-Sibelius5-IgnoreBeaming.xml

If we properly ignore all beaming information from the Dolet 3 for Sibelius export file, make sure that the lyrics syllables are still assigned to the correct notes.

99b-Lyrics-BeamsMelismata-IgnoreBeams.xml

1. Me - lisma ___ Me - lisma ___ Me - lisma ___ Me - lisma ___
