NAME
    mktexlsr – create ls-R databases

SYNOPSIS
    mktexlsr [*directories*]

DESCRIPTION
    This manual page is not meant to be exhaustive. The complete documentation for this version of
    TEX can be found in the info file or manual *Kpathsea: A library for path searching*.

    mktexlsr is used to generate the ls-R databases used by the kpathsea library. It will create them
    for the specified directories, or for a default list if no directories are specified.

OPTIONS
    mktexlsr accepts the following options:

    --help   Print help message and exit.

    --version
            Print version information and exit.
